WEDNESDAY, AUGUST 9.

WE go to press with no later news from San Francisco than what was brought by the steamer Australia. Congress is supposed to have adjourned on Monday last, and we shall soon learn, by the first arrival probably, of the final action of the Senate on our treaty. A vessel may be expected from San Francisco by Sunday next, when both of our regular mail barks will have been away from here 42 days, and one of them ought to be back.

LATE telegrams report that the bill to authorize the construction of a submarine cable across this ocean has passed both houses of Congress. The senate, however, struck out the clause which required the government to furnish vessels to lay the cable, and the bill passed without any pledge of aid or subsidy from the Government. This is the enterprise in which Mr. Celso Cresar Moreno and several San Francisco capitalists are interes ed. It is therefore probable that work on this great enterprise will be commenced soon. The English are also moving in a scheme to connec Australia with San Francisco via Fiji and Honolulu, and it may be that within two or three years the cable will be laid between San Francisco and Honolulu, for which the ocean bed is most admirably fitted by nature, and for the encouragement of which the Hawniian Goveroment has offered every inducement that can

THE value of silver in London has fallen from

63 pence per ounce in '75 to 48 per ounce in July 1876-a decline of 15 pence in twelve months. And yet our community views with complacency the law of 1872 which makes silver our legal tender, when with a united effort we may secure a gold standard, if not a gold currency. The late advices from India state that the value of the rupee, which is the current coin there, and was formerly rated at 45:3 cents, I U. S. short historical sketch of the small pox at these islands. So far as we know, this disease was of 1852 in the ship Charles Mallory from San Francisco. This vessel had on board sixteen passengers for this place, and on her arrival she was anchored off Waikiki, and her passengers transferred to a temporary quarantine hospital established on the shore near Diamood Head. They were under the charge of Dr. E. Hoffmann, and so successfully were the necessary precautions carried out that the disease spread no further. Of the sixteen passengers by that ship but two are now living, Mr. McDonns, of this place and Mr. F. L. Hanks of New York city.
